

# SYNTEX RESEARCH

July 14, 1966

Professor Joshua Lederberg  
Department of Genetics  
Stanford University School  
of Medicine  
Stanford Medical Center  
300 Pasteur Drive  
Palo Alto, California

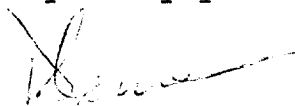

Dear Professor Lederberg:

Syntex is pleased to provide support for research activities in the Department of Genetics at Stanford.

This letter will identify a gift of \$1,000 to the Department of Genetics for which our check is enclosed. This grant is intended for research on computer analysis of laboratory data in which Professor Joshua Lederberg shares an interest with some of our staff.

These funds may be merged with others at your disposal, and no formal accounting or report to us is expected.

Very truly yours,

  
D. Lazare  
Director  
Research Administration
